Studying Game Design & Interactive Media at UC Irvine
Yucaipa

Summary

I am a junior transfer at UC Irvine pursuing a Bachelors of Science in Game Design and Interactive Media.

I have personal and academic experience with programming, primarily using Visual Studio 2019, as well as game development, mainly using Unity and C#. I am currently the Design Director at UCI's Video Game Development Club (VGDC). I also have general work experience from various part-time jobs I have had in the past including customer service and operations. I am currently looking for internships or other entry-level experience in game design and/or programming.

Experience

Video Game Development Club at UCI
Design Director
March 2022 - Present (3 months)
Irvine, California, United States

Galileo Learning
Operations Intern
June 2021 - August 2021 (3 months)
Santa Monica, California, United States

I helped operate a summer innovation camp for children in LA county. I had many responsibilities including setting up camp, managing supplies, answering phones, substituting for instructors, and managing teams. I also acted as an assistant to the camp director and took on some of their duties when they were absent.

Newport Pacific Capital
Facilities Monitor
June 2020 - September 2020 (4 months)
Yucaipa, California, United States

I monitored the use of the pool and clubhouse for Twin Pines Mobile Home Park operated by Newport Pacific. My responsibilities included controlling the chlorine levels of the pool and spa, enforcing the rules, and managing the facilities according to county guidelines regarding COVID-19. I enforced mask use and social distancing, limited capacity, and sanitized the facilities regularly.

Bear Valley Farms
Set Designer/Actor
September 2018 - November 2018 (3 months)
Big Bear City, California, United States

Bear Valley Farms hosted a special Halloween event called "Scare Valley Farms" where they set up scary mazes and attractions for visitors. My responsibilities included assisting in building and designing mazes in such a way that they have many opportunities to scare guests and I also acted during the event as a monster, roaming mazes and performing in shows.

Jack in the Box
General Employee
October 2017 - February 2018 (5 months)
Big Bear Lake, California, United States

I worked at Jack in the Box as a general employee. My main responsibilities included cooking, cleaning, and cashiering, though I spent most of my time doing the latter. I also occasionally managed stock for the store. I worked for a short term to save up some money for school expenses and left because I started doing night school classes to supplement my High School courses at the time.

Education

UC Irvine
Game and Interactive Media Design · (August 2021 - December 2023)

Crafton Hills College
Associate of Science - AS, Computer Science · (2020 - 2021)

Crafton Hills College
Associate's degree, Mathematics · (2020 - 2021)

Princeton University
No Degree, Computer Science · (2019 - 2020)
